

I've got some great products to share with you this month! A couple of really great accessories that are both on-trend and very practical at the same time. To mix things up a bit I decided to start with a look that will take you straight from the barn and out onto the street – looking great and ready for whatever the day has for you. I've also got the riding shirt you NEED to beat this heat! As well as a great color combination to rock in your next big jumper class or medal final.

◀ **OUTFIT 1 - WHAT I'M WEARING:**

Skull Cashmere linen sweater, Equine Couture Natasha breeches, Katharine Page Devon sandals, Oughton Limited handbag.

I can't tell you how many times I've gone straight from the barn to dinner, or hopped off a horse and headed straight to watch the Grand Prix at a horse show. Wearing a darker color breech makes it easy

jacket the vented sleeves help keep you cool. I like the fun, bright colors for schooling days but this white one is great for summer horse shows. I love these white breeches with just a hint of sparkle on each of the pockets, and they're made of a good heavier material that makes for a more flattering fit – which I really appreciate when it comes to those white pants! This Anna Scarpati bag looks great in a patent black, but it's made of a durable material so it can withstand being thrown around a bit at the shows. I carry all of my necessary equipment like extra spurs, alternate bits, etc. Lastly, can I just say that I LOVE a dark navy jacket with white breeches? Beige, tan, or buff just doesn't give navy the justice it deserves like the contrast on white does.

to transition into nice pulled-together look, and these sandals are not only a great style, they are made of the same leather and stitching as our bridles! So cute! Skull Cashmere is a street wear brand that I'm constantly crossing over into my riding attire and they make these wonderful linen sweaters for Spring and Summer. The color of the sweater and stitching on these breeches match this stunning Oughton bag perfectly – another chic Equestrian inspired design.

▼ OUTFIT 2 – WHAT I'M WEARING:

EIS Cool Shirt, Kingsland breeches, Equiline Show Jacket, Anna Scarpati tote bag from Equis Boutique, Eiki custom dress boots.

I'm pretty sure it's ridiculously hot all over the country, but in Nashville it's scorching! This EIS shirt is perfect for schooling and showing – worn alone it keeps you protected from the sun and even under a
