LESSONS

Jump Height - Jumps 3,4,5,6
I recommend to be very low, 0.50m, jumps 1,2,7,8 can be any height.

Part 1
Set fences 1,2,7,8 as poles. Canter #7 to #8 in 3 strides, which will be on a gallop. Canter all the way around the ring and jump #2 to #1 in 3 strides. Continue the pattern until satisfied, then change the number of strides between the poles to 5 strides, a very collected canter. Continue until satisfied that horse and rider are executing correctly.

Part 2
Height appropriate for 1,2,7,8. Canter fence #1 to #2 in 3 strides. Slow the canter and jump fences 3,4 in an extremely collected canter. You will turn inside from 4 - 5. After #6 continue to #7 and then 3 strides to #6. The second time through, for added difficulty go through the markers on the turns between #3 to #6. This exercise should be done in both directions.

What the "pros" are saying about Jay Duke Equestrian:

Jay helped me back when I had ponies and I have to say he was very good about conditioning me to make a plan every time I go in the ring. When you are just starting out in the jumper ring or looking to move up the ranks, having a really fundamental grasp of position and rhythm is what you most successful. Jay does a great job of honing in on the those basics to make sure you are absolutely prepared to move up. The higher you jump and the more prestigious the horse shows, it is easy to get caught up in the details, but the thing I always remind myself of are his lessons on the basics.
