### NICOLE LAKIN TURNS ADVERSITY INTO OPPORTUNITY WITH BARNMANAGER

The path to BarnManager's creation wasn't anything founder and CEO Nicole Lakin could have predicted, but the incredible result - an innovative software solution that's now the **official barn management software of US Equestrian** - is even more than she could have imagined!

#### GETTING TO KNOW BARNMANAGER

##### Keeping Track of Veterinary Records

Riffling through paperwork, trying to recall exactly what it was the vet said about next steps for your lame horse or when it was that your horse last got his hock injections can be a hassle and an unnecessary waste of time.

With BarnManager, you can simply snap a photo of your vet records or invoices and drop them into the application, or type up a brief note on the appointment and add it to your in-software records for quick and easy access anytime and from any phone, laptop, or tablet!

*BarnManager is a cloud-based software solution that provides horse owners and managers with the tools they need to streamline and simplify their daily management responsibilities. The program offers digitized record keeping for the many facets of horse care and has developed intuitive and simple business tools to make small business management accessible and easy.*
