On The Blog: Laminitis Signs

Each month on the [BarnManager blog](#), Liv Gude, a former international dressage groom and the founder of [ProEquineGrooms.com](#), shares insight and advice relevant to all those involved in the care and management of horses. Most recently, Liz talked laminitis and what signs you should be aware of. [Read more here!](#)

GETTING TO KNOW BARNMANAGER

Communication is Key

From its onset, BarnManager was designed with the objective of streamlining and simplifying the communication and organization necessary when managing horses.

With the 'Conversations' feature, users - including owners, clients, grooms, managers, and others - can engage in discussion directly within the software and take advantage of the ability to search and tag specific horses or keywords, all allowing for easy reference of the conversation later, ensuring that no important details or plans are missed! [Watch a short how-to video on adding a new conversation here!](#)

BarnManager is a cloud-based software solution that provides horse owners and managers with the tools they need to streamline and simplify their daily management responsibilities. The program offers digitized record keeping for the many facets of horse care and has developed intuitive and simple business tools to make small business management accessible and easy.
