Valued Clients,

At a time when so many of us are sheltering in place, the homes in which we live have taken on new meanings. As the saying goes, home is where the heart is, and now more than ever, home is also where we find comfort, safety and gratitude.

In homage to these beloved spaces – be it a house in the country, a cottage at the beach or a place in the city – Douglas Elliman has produced a new video called "Dear Home."

Please enjoy, and remember to stay safe and keep well. I look forward to the day when we can all be together again soon.
