### LOOK INSIDE

"My parents, Kathy and Joseph Patton, had hunters, so I basically grew up in the stable. I've loved horses since I can remember. I was five years old when my brother, Stewart, and I got our first Shetland ponies, Flicka and her dam, Fudge, along with their bridles —but no saddles. I jumped and did everything with my pony bareback. I would ride so much that my parents would tell me when Flicka had had enough because otherwise, I would have ridden her all day."  
- Beezie Madden, two-time Olympic team gold medalist
