

## Newton Stud Offers Exceptional Collection of Dressage Horses

*Online Auction Presents Pedigree, Potential, and Performance*

Newton Stud is offering an outstanding collection of 19 dressage horses through its online auction. The British-based catalog of exceptional sport horses is available to a global audience when **bidding opens on April 6, 2026**, running through April 11, 2026.

The collection includes established competition horses, young ridden prospects, and unbacked three-year-olds. The auction gives full access to a carefully selected group of European-bred horses — and one special pony — with bloodlines renowned for performance, rideability, and long-term success.

The catalog boasts two direct offspring from the nine-time Paralympic gold medalist mare Athene Lindebjerg: Newton Fortuna (by Fidertanz) and Newton Dione (by Danone I). It also features two horses out of the same Rhodium dam as the U.S. grand prix horse Fiesto Beat: Newton Totorhode (by Toto Gold) and Newton Montessori (by My Blue Hors Santiano).

Championing outstanding pedigrees, these horses are descended from sires including Vitalis, Sezuan, Blue Hors Zack, Franklin, San Amour, and Wynton. Dams include proven grand prix producers and elite mare lines, bringing influential stallions such as Gribaldi, De Niro, Rubinstein, Sandro Hit, Don Schufro, and Krack C through the dam lines.

“This collection truly reflects the depth and consistency of our breeding program,” said Lorna Wilson of Newton Stud. “We place enormous importance on our dam lines. These well-proven families are the backbone of everything we produce.

“By combining them with the very best modern sires, we breed horses that are not only talented but also genuinely rideable and trainable. Due to the scale of our program, we have more horses than we can realistically produce and compete ourselves, creating a unique opportunity for buyers to find some exceptionally talented horses.”
