EQUINE SUPPLEMENTS MADE FOR WINNING, NATURALLY

One of the major changes we've noticed with two mares on the Positude is their overall state of calm and well-being. The horses seem to feel healthy and happy, which benefits them not only in their daily routine, but also in their performance.

McLain Ward

They like eating the Ulceraser, and we like that it's all-natural. The horses seem to bloom when they're on it, so we put the whole barn on it. We notice a change in their attitudes and their overall performance.

Traci Brooks

I have five or six horses in my barn that show FEI, and it's important for us that if we're using something, it has to be FEI-safe. I have confidence in the ingredients of the Equine Elixirs products.

Kevin Babington

We've been using Ulceraser for over two years and we've really seen an improvement in our horses' conditioning and coats, as well as their overall happiness to work around and to ride. They're just happier horses.
